CS F441 – Selected Topics from Computer Science
Assignment – 2

Presentations on 7th & 8th Nov 2020

- This assignment is a study project and is expected to be done in groups.

- Each group can contain at most three members.

- Every group has to choose a research paper of their interest preferably in the area of supervised learning.

- The selected research paper cannot be a short paper or a poster. If should a research paper of at least 8-10 pages.

- Each member of the group should understand the paper to finest details.

- It is expected that the understanding of the paper is same amongst all the members of the group.

- Any member(s) of the group may be asked to present the paper. If one is unable to present the paper to the expected level then his marks will be awarded accordingly.

- The time slots for presentation can be booked by blocking one of the slots on 7th and 8th. The excel sheet to book these will be made available in due course of time.

- The presentation should be driven using a good ppt. The format of the ppt should follow the model ppt "CS F441 - Research Paper - Presentation Template". The file CS F441 - Research Paper - Presentation Template.pptx is embedded in the CS F441 - A2.zip file.
